

16-Page Fully Customizable Patient Education Brochures

YOUR BRAND. Your logo, phone number and website appear on the cover. Page 3 is reserved for your story. In 500 words or less, it explains who you are, what you do and what sets you apart. Need help? We can write it for you. The back cover features your logo, phone number, business address, email address and website.

YOUR PHOTOS. Stock images used in the brochure can be easily replaced with high resolution images of your patients, staff, and facility. Need photos? We can even send a professional photographer to your facility.

YOUR PATIENTS. Your brochure will clearly explain the prosthetic fitting and fabrication process. It will include a Glossary and Frequently Asked Questions (FAQ) section. This is an opportunity to share your expertise.

SHARE KNOWLEDGE. BUILD TRUST.
